New Business

Proposed One-Time Staff Bonus for Mountain Mobility Staff
Since Land of Sky has named Vicki Jennings as the Transformation Manager to lead the Healthy Opportunities Pilot, the Mountain Mobility team, and specifically Charlie Lee, has taken on many new roles and responsibilities to ensure Land of Sky continues to fulfill its obligations to Buncombe County under the contract to provide administrative support. Charlie’s willingness to learn new tasks and to increase his responsibilities will provide valuable leadership to the restructured Mountain Mobility team. The funding for this bonus will come from the current Mountain Mobility budget. Today’s request is to provide a one-time staff bonus to Charlie Lee in the amount of $4,000.

Vicki Jennings shared that Charlie has been with Mountain Mobility almost five years and he is in the process of taking over some of the reporting responsibilities for the program, as well as other program work. She stated her support for the proposed one-time staff bonus.

Patrick Fitzsimmons moved to approve the one-time staff bonus in the amount of $4,000 to Charlie Lee, as proposed. Bob Tomasulo seconded, and the motion carried upon a roll call vote and without further discussion.

Healthy Opportunities Update
Land of Sky Regional Council has been named by Dogwood Health Trust to be the Transformation Lead for the Healthy Opportunities Medicaid pilot serving 18-counties in Western North Carolina. The pilot has four focus areas: Food Insecurity, Housing, Transportation and Toxic Stress. DHT has committed $10 Million of their funding for this initiative and has provided the Council with a $400,000 grant for office renovations as well as funding for operating costs. This pilot is one of three in North Carolina focused on the social determinants of health. Vicki Jennings shared that to date, the pilot has been providing funding for capital improvements to undertake renovations to develop a call center. The pilot is not slated to begin until July and the selection process is underway to staff the second position for this project. She noted also that DHT and Impact Health have had some staffing changes with Robyn Hamilton leaving Impact Health and Deon Greenlee-Jones named as the interim Executive Director. Everything is on track to move forward and the first determinant (Food) is expected to launch next month. Contact has been made with other transportation systems for best practices and the project is well under development for its July launch. Vicki Jennings noted that the Medicaid recipients that would be served under this initiative are those who have chronic health challenges, and who could benefit from having services to improve their social determinants of health. Medicaid funding might support Continuing Education classes for clients to improve their health outcomes, or to provide transportation to a farmer’s market for better quality food, etc. The Healthy Opportunities team is working together to serve clients who could benefit from additional services.
No action requested. Information item.

Other Items

Executive Director Report
Nathan Ramsey shared that his current report is included in the agenda packet, and he encouraged Executive Committee members to reach out with any questions or comments regarding the report.

Nathan Ramsey highlighted that Covid cases are down throughout the region and at the organization. LOSRC is following Buncombe County guidance with regards to masks, etc. going forward, meetings would be offered in a hybrid format to allow for in-person attendance or through Zoom.

The DEQ held a work session this past Monday at the LOSRC office that had a large attendance. The goal of this work session was to provide ideas for how local governments can take advantage of the ARPA funding available.

DHT is planning to provide $300,000 over the next three years to LOSRC’s ECD for technical assistance to expand capacity and provide additional support to apply for grant opportunities.

The State is in the process of recommending local area workforce board consolidation through the NCWorks Commission. At this time, changes are not anticipated to the Workforce programs through LOSRC.

Nathan Ramsey noted that LOSRC has received over $20 Million in grant funding over the past two years to support programs in the region.

Nathan Ramsey shared that the Department of Interior is the federal agency tasked with approving the indirect cost rate for LOSRC and currently, negotiations are underway on the rate for FY23. Once the negotiations are finalized, the organization will have a better idea of the level of compensation increases staff might look forward to in FY23. He noted that although some costs are rising (health plan, retirement, etc.), a lower indirect cost rate is a good time to provide an adequate salary increase for staff as that means less cost to the programs. He noted that currently, the Council is in a very good financial position.

Adjournment

Chair Volk adjourned the meeting, as there was no further business.

Respectfully submitted by Zia Rifkin

AGENDA ITEM SUMMARY

Item: 3A – Waste Reduction Partners (WRP) Salary Adjustment

Nature of Item: Action

Attachment(s): Waste Reduction Partners (WRP) salary adjustment

Background: Waste Reduction Partners (WRP) is a statewide program operated by Land of Sky Regional Council in partnership with the NC Department of Environmental Quality (DEQ). WRP Solid Waste Manager has been in the current position for twelve (12) years and serves in a ¾ position.

WRP Solid Waste Manager has taken on additional responsibility and has increased their capability. Currently WRP Solid Waste Manager is earning an hourly rate of $28.29 per hour. We request that this position hourly rate be increased to $30.27 per hour. The WRP program has sufficient funding to pay for this increase in the hourly rate.

Responsible Staff: Nathan Ramsey, Executive Director, and Erica Anderson, Economic & Community Development Director

Suggested Motion: Motion to approve the salary adjustment for Planner III staff effective for the pay period beginning April 1, 2022.
March 11, 2022

To: Nathan Ramsey

CC: Danna Stansbury, Erica Anderson, Charlotte Sullivan

From: Terry Albrecht, WRP Director

Subject: Salary Adjustment Proposed for Jan Hardin, Solid Waste Manager, WRP

Jan Hardin has worked for the Council’s Waste Reduction Partners program for almost 12 years with the last 5 years serving in a ¾ time position as the program’s Solid Waste Manager. In this position, equivalent to a Planner II (Classification 26), Jan has managed grants, overseen technical assistance projects and provided technical supervision of the Waste Reduction Partner field assessors.

More recently, Jan Hardin has taken on additional grant writing and management roles with USDA and EPA programs, increased her supervisory responsibilities of the WRP statewide team members, demonstrated her technical expertise and outreach with state, regional and national professional organizations, and dedicated more partnership and liaison work with NC Department of Environmental Quality’s environmental and recycling program staff.

Jan is currently earning an hourly rate of $28.29 in a ¾ time position. Due to the above increasing level of expertise and program management responsibilities and in order to keep her salary competitive in a tightening employee market, I propose a salary adjustment increase to her pay rate by seven (7) percent to a new rate of $30.27/hour. This proposed new rate would move Jan closer to the midpoint of the current play plan for a Planner II (26) position. I would propose to make this adjusted effective as soon as possible at a next complete pay period following approval. The WRP program has adequate funding to support this increase.

Let me know if this proposed salary adjustment for Jan Hardin is acceptable and any additional documentation needed to move forward with approvals. Thank you.
AGENDA ITEM SUMMARY

AGENDA ITEM SUMMARY

Item: 3C - Economic & Community Development Staff Salary Adjustments

Nature of Item: Action

Attachment(s): Planner III salary adjustment

Background: The Economic & Community Development (ECD) Department is experiencing a tremendous increase in workload due to more demand in services from local governments and community partners. The most experienced planners on staff have expertise that is in short-supply and in high-demand from both the public and private sectors. The Planner III salary adjustment will provide compensation which is more competitive and reflective of the complexity of their work. Despite this pay adjustment, our salary schedule remains uncompetitive with the current labor market for this role. This salary adjustment is consistent with the Land of Sky Regional Council Pay and Classification Study.

Responsible Staff: Nathan Ramsey, Executive Director, and Erica Anderson, Economic & Community Development Director

Suggested Motion: Motion to approve the salary adjustment for Planner III staff effective for the pay period beginning April 1, 2022.

Land of Sky Regional Council
Executive Director’s Report
Respectfully submitted by Nathan Ramsey
March 23, 2022

1. Finance
   • MIP (finance software) training will begin the first week in May.
   • FY 22/23 budget work is underway.
   • The auditors have started their on-site compliance work the week of March 14.
   • We have not determined what the proposed staff COLA will be for the FY22-23 budget. The Council’s indirect rate will decline for the upcoming program year which will allow for a staff salary increase without reducing program funds. Health Insurance and retirement rates will increase for FY22-23.

2. Economic & Community Development & Transportation Planning
      • We are excited to share that Sara Nichols, Regional Planner, presented at the Net Inclusion 2022 Conference on a panel about Coalitions and Digital Equity Planning. [https://www.digitalinclusion.org/net-inclusion-2022/]
      • January 25 & 27 the Clean Cities team hosted a workshop series to educate local government and school personnel on how fleet and building decisions can improve air quality while strengthening public budgets. These sessions included AICP credits for sustainability and hosted over 50 people.
      • We have released an RFP to seek a Creative Manufacturing Consultant. The RFP closed and candidates were interviewed by the selection committee. The project will be moving forward with a contract soon.
      • The WNC Innovation Park was selected as a Duke Sanford School of Public Policy’s Spring Consulting Project. We are working with staff and students as they begin their project. Staff continues to seek funding for a feasibility study/strategy to develop the WNC Innovation Park with the coalition of 5 COGS, Dogwood Health Trust, WCU, Montreat College, Community College System, and many other partners.
