II. BACKGROUND AND GENERAL INFORMATION

Introduction: Mountain Area Workforce Development Board

The Mountain Local Workforce Area is under the authority of the Land-of-Sky Regional Council (LOS) which serves as the Grant Recipient/Administrative Entity for the Workforce Innovation & Opportunity Act (WIOA) funding for the operation of WIOA programs in Buncombe, Henderson, Madison, and Transylvania Counties as designated by the Local Area Agreement between Buncombe, Henderson, Madison, and Transylvania Counties. Contracts entered into with WIOA service providers in the Local Area will be contracts with the Land-of- Sky Regional Council on behalf of the Mountain Area Workforce Development Board.

The Mountain Area Workforce Development Board (MAWDB) is an employer-driven entity, charged with the responsibility of implementing policies that ensure the distribution of federal workforce funds in a manner that creates a network of programs and systems designed to address critical workforce challenges. The MAWDB works to ensure the efficient use of funds, maximize the system's effectiveness, and improve collaboration between local workforce partners. The mission of the MAWDB is for the area of Buncombe, Henderson, Madison, and Transylvania Counties "to provide employers and job seekers a fully integrated system of employment, education, and training services for the purpose of developing the economic strength and global competitiveness of this area."

As a requirement of the Workforce Innovation and Opportunity Act of 2014 (WIOA), the MAWDB has a federal mandate to be the lead organization for workforce development planning and to arrange for a system of service delivery that meets the workforce needs of businesses and the public alike. The Mountain Area Workforce Development Board is comprised of private business representatives, educational representatives, community-based organization representatives, state agency representatives and labor organization representatives from our four county region. The MAWDB provides WIOA services for Buncombe, Henderson, Madison, and Transylvania counties.

All parties contracting with Land of Sky Regional Council, as Administrative Entity for the Mountain Area Workforce Development Board must comply with USDOL regulations and any other interpretations published by the USDOL. Administration and operation of this program is subject to compliance with the Workforce Innovation and Opportunity Act of 2014, state policies, including but not limited to policies from the NC Department of Commerce Division of Workforce Solutions and local policies, the NCWorks Commission and procedures as issued by the Mountain Area Workforce Development Board. Funded proposals will also be required to meet specific Federal, State and Local guidelines for participant outcomes and program performance

Purpose of Request for Proposal

The purpose of this Request for Proposal (RFP) is to solicit competitive proposals for the provision of Adult and Dislocated Worker services pursuant to WIOA. The selected subrecipient(s) will be responsible for operating Adult and Dislocated Worker services under the guidelines and requirements of the Workforce Innovation and Opportunity Act of 2014 (WIOA). The selected subrecipient will also be responsible for following and implementing all programs and services required by state law or approved by the Mountain Area Workforce Development Board. The area of service shall include the following counties: **Buncombe, Henderson, Madison, and Transylvania.**

Proposals shall meet the objectives identified as follows:

The MAWDB is seeking interested organizations that demonstrate the objectives listed below:

- Competent and cooperative management with a vision for staffing and supporting the NCWorks Career Center system;
- A commitment and ability to ensure that customer service-oriented staff are available to serve job seekers and employers;
- A willingness to integrate resources and activities with other organizations;
- Flexibility in deploying human resources and an ability to adapt to change as economic conditions and operational needs evolve; and
- A willingness to initiate and participate in business, job seeker, community and partner planning and outreach activities.

A contract resulting from this RFP is anticipated to begin July 1, 2022 and continue until June 30, 2023 pending available funding. This is a one-year award with an option for two, one-year extensions.

Eligible Service Provider:

Any governmental, educational, community or neighborhood-based organization or non-profit agency engaged in a public service; or any private for-profit agency engaged in providing workforce development services to customers (job seekers and businesses).

Program Period:

The program-funding period is from July 1, 2022 through June 30, 2023. Continuation beyond June 30, 2023 is subject to future funding and legislative authority. Based on funding availability, the option to extend the contract up to two additional years beginning July 1, 2023, exists with the opportunity for re- negotiation at least sixty days before the expiration date of the first-year contract. In order for the MAWDB to exercise its two additional year option, the subrecipient must meet the performance requirements as outlined in the contract. However, the MAWDB is not bound to exercise the two additional year contract solely on stated performance criteria. The MAWDB can, with sufficient justification, renew an annual-contract for two

additional years without benefit of competitive procurement not to exceed a total of three years. Each renewal shall be limited to a one-year period.

Type of Contract:

The MAWDB will accept only **Cost Reimbursement Proposals** for this contract year. A Cost Reimbursement Contract is one that establishes an estimate of total costs for the purpose of obligating funds and a ceiling that the subrecipient may not exceed (except at subrecipient's risk) unless the awarding party agrees to amend the contract to provide additional funds. A line-item budget shall be based on all legitimate costs to be incurred by the subrecipient in carrying out the training activity. The subrecipient is reimbursed for actual expenses according to the approved line-item budget.

Program Allocations by Counties to be Served:

In preparing a bid, the bidder must specify the counties in which services are being proposed and develop budgets based on Program Year 2021/22 allocations, with a 5% reduction of budgeted amounts. At this time, PY2022/23 allocations have not been received by the Mountain Area Workforce Development Board. It is anticipated that allocation information may be received prior to the May 2022 meeting of the Board, which may necessitate negotiations with proposers to better refine proposed budgets. It is anticipated that the MAWDB may provide preliminary budget recommendations for PY2022/23 program operations at their May 2022 meeting. Approval of final budget recommendations is planned for the MAWDB's June 2022 meeting.

Although the initial award will be for a 12-month period, bidders may design a multi-year program with longer-term interventions that provide for continuous performance improvement. Based on successful performance, timeliness of start-up and quality of service, the WDB and the subrecipient will have the option, depending on future funding, to negotiate continued funding for up to an additional two years. However, each renewal of the contract shall be limited to a one-year period. For the provision of Adult and Dislocated Worker services in the Local Area, funding is contingent on budget availability and allocations as determined by USDOL and DWS. The Local Area has experienced a significant reduction in our allocations over the past several program years and the availability of funding for Adult and Dislocated Worker Services may not be provided to MAWDB until most likely late in the Spring of 2022.

A. PURPOSE: The Purpose of this Request for Proposal is to solicit a Statement of Work and budget from potential WIOA service providers for the delivery of Title I services for Adults and Dislocated Workers AND for the operation of the NCWorks Career Centers located in the Mountain Area Workforce Development Board (MAWDB) Local Area in each of the four counties in the Mountain Area Region of western North Carolina. The WIOA services are to be delivered through the Integrated Service Delivery System as specified and chartered by the North Carolina Department of Commerce, Division of Workforce Solutions. The service provider must submit a Statement of Work and Budget(s) as outlined in this request for the program year July 1, 2022 through June 30, 2023. The selected subrecipient(s) will be responsible for operating the Adult and Dislocated Worker Services under the guidelines and requirements of the Workforce Innovation and Opportunity Act of 2014 (WIOA). The selected subrecipient(s) will also be responsible for following and implementing all programs and services required by state law or approved by the Mountain Area Workforce Development Board. The area of service shall include the following counties: Buncombe, Henderson, Madison, and Transylvania.

The initial funding period is from July 1, 2022 through June 30, 2023. At this time, the Program Year 2022 funding allocation amount to Mountain Area Workforce Development Board for Adult and Dislocated Worker services is preliminary. Continuation beyond June 30, 2023 is subject to future funding and legislative authority. Based on funding availability, the option to extend the contract for a second year beginning July 1, 2023, exists with the opportunity for renegotiation to be initiated in writing by MAWDB. In order for MAWD to exercise the second year option, the Sub-recipient must meet the performance requirements as outlined in the contract and must have demonstrated program and financial compliance as evaluated during contract monitoring visits. However, MAWD is not bound to exercise a second year contract based on accomplishment of compliance and performance criteria.

- B. Type of Contract:** Bidders must propose a Cost Reimbursement contract. A Cost Reimbursement contract is one that establishes an estimate of total costs for the purpose of obligating funds and a ceiling that the Sub-recipient may not exceed (except at Sub-recipient's risk) unless the awarding party agrees in advance to amend the contract to provide additional funds. A line item budget shall be based on all legitimate costs to be incurred by the Sub-recipient in carrying out the training activity(ies) of the program(s). The Sub-recipient is reimbursed for actual expenses incurred according to the approved line item budget.
- C. Procedures:** The Mountain Area Workforce Development Board requires a competitive procurement Request for Proposals process for WIOA funded Adult and Dislocated Worker Services to be provided in Buncombe and Madison Counties and/or Henderson and Transylvania Counties. The One-Stop Operator is a separate procurement and not included in this RFP. The schedule of activities and deadlines is presented below.

Letters of Intent to Bid must be submitted to Nathan, Mountain Area WDB, 339 New Leicester Highway, Suite 140, Asheville, NC 28806 or by email to nathan@landofsky.org and zia@landofsky.org.** Letters should provide a clear statement of the intent to submit a proposal for WIOA funding to operate WIOA Adult and Dislocated Worker Services single counties, or in Buncombe and Madison Counties; or Henderson and Transylvania Counties; or all four counties. **The letter should include the name of the organization, its chief executive officer's name and contact information, and the designated contact person from the organization through which dialogue regarding the procurement process should be routed.** If at any time your organization wishes to withdraw your intent to Bid, notify the Mountain Area WDB Director at nathan@landofsky.org and zia@landofsky.org. This notice of withdrawal must come from the designated contact person, or the CEO as designated in the Letter of Intent to Bid.

Questions will be accepted until 12:00 noon on Friday, April 15th. Replies will be provided as quickly as practical. After these replies are provided, no further responses will be provided to inquiries concerning this Request for Proposals. If circumstances arise that involve critical information that must be communicated to all bidders between April 15th and the proposal submission deadline at 4:00pm on May 11th, such information will be communicated by email to all bidders who attended the bidders conference.

 13. Approval of any and all proposals submitted is contingent upon the Mountain Area Workforce Development Board's receipt of funding under the Workforce Innovation and Opportunity Act.
- A. **BACKGROUND:** The Workforce Innovation and Opportunity Act of 2014 is the nation's principal workforce development legislation. The primary system of service delivery in North Carolina is the NCWorks Career Center System.

The NCWorks Career Centers are structured as "one stop delivery systems" that function in accordance with the "Integrated Service Delivery" model. Services to be provided are enumerated and described in WIOA Section 134(c) – Required Local Employment and Training Activities; and 134(d) – Permissible Local Employment and Training Activities.
<http://beta.congress.gov/113/bills/hr803/BILLS-113hr803enr.pdf>

Integrated Service Delivery (ISD) operational basis of the workforce investment system is in North Carolina. ISD unifies numerous training, education and employment programs into a single, customer-friendly system in each community. The underlying notion of the integrated service delivery system is the coordination of programs, services and governance structures so that the customer has access to a seamless system of workforce investment services. (Attachment F). The ISD model of operations emphasizes the cross training of staff who are funded with Wagner-Peyser Act funds, and who are state employees; and staff funded through

the Workforce Innovation and Opportunity Act who are employees of the successful bidder for this (these) grant(s). The WIOA provides common performance standards for both WIOA and Wagner-Peyser programs. Supervision of the staff in the integrated service delivery NCWorks Career Centers is divided into functional supervision of day-to-day operations, and formal supervision which involves the North Carolina Office of State Personnel and the NC Department of Commerce, Division of Workforce Solutions. Formal supervision involves the human resource policies of the State of North Carolina. For daily operations all staff are accountable to the center manager.

Within the center there are basically four functional teams – Welcome, Skills Development, Employment Services and Employer/Business Services:

The Welcome Team greets customers (in person, virtually, or on the phone) and assists clients with the initial service needs assessment, orientation to services available, workshop scheduling, and guides them to the appropriate staff who can provide them with the services they want/need.

The Skills Team works mostly with clients who want assistance with job readiness skills (interviewing, resumes, online job applications, etc.), basic education skills, occupational skills, etc. The skills team develops and schedules workshops, administers formal assessments, provides career planning services, assists with course registration processes and coordinates the use of WIOA funds for tuition, books, fees, etc. to support clients entering short and long term training.

The Employment Team primarily assists clients with job search and acquisition activities. They also have primary responsibility for required programs related to meeting the NCWorks Online registration processes that are required for Unemployment Insurance claimants. They conduct Employability Assessment Interviews (EAIs) and Re-employment and Eligibility Assessments (REAs). The Employment Team also assists employers with job listings and job order referrals. The employment team also assists employers with scheduling and recruiting for employer interview days in the Career Center. The employment team also teaches WIOA clients how to use NCWorks online to conduct job searches and set-up virtual job search notifications.

The Business Services Team is the NCWorks Career Center’s primary business outreach team. The Business Services Team is comprised of WIOA employees, Veteran’s Employment Representatives and Wagner-Peyser business services staff. These staff members market NCWorks Career Center services to businesses throughout the region. Services that they market include Job Order listings and fulfillment; recruitment, assessment/screening and referral services; WIOA On-the-Job Training contracts; Work Opportunities Tax Credits, the National Career Readiness assessments and certificates (Work Ready Communities); WorkKeys profiling and testing, etc. This request for proposals does not include Business Services positions or responsibilities, but positions funded under this RFP will need to have close working relationships with the Business Services Team.

Career Center Partners – Several partner organizations have a presence in the career centers or have referral relationships with the Career Centers:

- Vocational Rehabilitation,
- Temporary Assistance to Needy Families (TANF),
- Adult Education (Basic Education, High School Equivalence & English as a Second Language),
- Community College Human Resources Development (HRD) programs,
- Former Offender Re-entry programs and
- Disabled Veterans Outreach Programs.

Other partners may be added to the list of service providers as opportunities and needs arise.

Certified NCWorks Career Centers – The NCWorks Commission is comprised of prominent business executives and the executive leadership of all State agencies that are tasked with Workforce Development. The NCWorks Commission is given the authority to certify NCWorks Career Centers based on formally established criteria involving the types and quality of services delivered, standards of customer service, the job related professional expertise of staff and commitment to continuous improvement.

MAWD, in partnership with the community colleges and other workforce development partners, has developed a system of comprehensive and affiliate NCWorks Career Centers throughout the four county Mountain Area region. All NCWorks Career Centers in the local area are certified by the NCWorks Commission.

At a minimum the certified NCWorks Career Centers must provide an array of services that are consistent with the Wagner-Peyser Act, Title I of the Workforce Innovation and Opportunity Act (WIOA), Trade Adjustment Assistance (TAA) and Veterans Services programs. Memoranda of Agreement must be developed to assure the inclusion of services by other relevant workforce development partners in the counties of operation. Memoranda of Understanding (MOU) must be developed among the organizations in the workforce system that collocate with, or have mutual referral arrangements with, the NCWorks Career Centers in the Mountain Local Area. Attachment G provides the framework for North Carolina’s Integrated Workforce Delivery System.

The proposing organization(s) that is(are) awarded the WIOA funds for operating Adult and Dislocated Worker Services must assure that services will meet the standards set for maintaining, or enhancing, the NCWorks Career Center certification standards.

B. WIOA SERVICES TO BE PROVIDED THROUGH THE INTEGRATED SERVICE DELIVERY CENTER

Services to be provided are listed and described in WIOA Section 134(c) – Required Local Employment and Training Activities; and 134(d) – Permissible Local Employment and Training Activities.

<http://beta.congress.gov/113/bills/hr803/BILLS-113hr803enr.pdf>

also see Attachment C to this RFP

Generally, all jobseekers entering an NCWorks Career Center must receive a polite and friendly reception, and an opportunity to explain their needs. Prompt attention to those needs is expected of staff. At this time staff are not permitted to answer questions about Unemployment Insurance or Claims. Questions about these matters are to be presented to the

NC Division of Employment Security via phone, internet or mail. However, staff will be involved in registering all Unemployment Benefits Recipients on NCWorks Online and in conducting Employability Assessment Interviews and Reemployment and Eligibility Assessment workshops.

Training Services

Short-term (less than 6 months) and long-term (up to 2 years) credentialed training services are available to eligible adults and dislocated workers through the use of Individual Training Accounts (ITAs) or through the Cost Authorization process. Participant may choose from among approved training providers and training courses. Training services are available to qualified adults or dislocated workers in approved “occupations in demand” as determined by the Mountain Area Workforce Development Board (see Attachment B – Approved Training Programs). Trained staffs at the NCWorks Career Centers assist applicants with the assessments, career planning, training registration processes and the financial aid analyses. WIOA assistance with tuition, books and fees may be provided to eligible applicants with demonstrated financial need if they meet the terms specified in WIOA Section 134(c)(3)(A)(i). Services to priority group members apply when funding for training is limited.

On-the-Job Training (OJT) is operated as a regional program with staff employed by the Board. The Regional Business Services team members are based in the larger Career Centers and schedule regular visits at the smaller centers. They are also involved in several other business service initiatives including Sector Strategies in advanced manufacturing, healthcare, hospitality & tourism, construction/skilled trades, and technology/IT, Career Pathways for advanced manufacturing and hospitality & tourism, Work Ready Communities and marketing NCWorks Online as the preferred system for job listings and virtual recruiting. The regional business services team works in close partnership with the Career Center Staff, especially the Employment Team and the Career Center Manager. The position(s) are also accountable to the Regional Business Services Coordinator and the Director for the Mountain Area Workforce Development Board. Staffing for OJT positions will not be part of contract(s) awarded from this RFP. However, Career Center staff funded through this RFP are expected to work closely with the Regional OJT staff to assure that appropriate clients are referred for OJT opportunities and to fill OJT job openings with appropriate candidates.

On-the-Job Training (OJT) is training provided by a private, private non-profit or public non-profit employer to an eligible WIOA participant. An OJT contract with an employer to train a participant must be completed and signed before the participant is extended an offer of employment by the employer. The process of developing the OJT contract involves assessing and documenting the participant’s skills gap. The participant’s existing skills and prior work experience must be compared to the requirements of the job. A detailed, individualized training plan must be developed that guides the employer in the training that is to be provided to the participant/employee during the OJT training period. This training plan becomes an essential element in the OJT contract and the participant becomes an employee of the business when the OJT contract begins. The employer pays the participant an agreed upon wage, and the employer receives a reimbursement of at least 50% of the participant/employee wages during the contracted training period. On-the-Job Training contracts will be written for a maximum of twenty-six (26) weeks in the Mountain Local Area. All OJT contracts must be reviewed and approved by Mountain Area Workforce Development’s Business Services Coordinator or the

MAWDB Director, and the MAWDB Workforce and Accounting Specialist prior to the start of the OJT activity. The OJT program activity will only be funded should the Local Area have sufficient funding to operate an effective and efficient program. The service provider will utilize the Local Area OJT Handbook and applicable policies for the operation of any OJT program funded.

C. RAPID RESPONSE SERVICES (Dislocated Worker ONLY)

Rapid Response activities are provided to enable dislocated workers to transition to new employment as quickly as possible, following either a permanent closure or mass layoff. These services are coordinated through the North Carolina Dislocated Worker Unit, located in the Division of Workforce Solutions, North Carolina Department of Commerce. In most cases, the manager of the local NCWorks Career Center will contact the management of the affected company and offer services in accordance with the company's preferred schedule and arrangements. The Career Center manager then establishes the local rapid response team that involves appropriate workforce development partners (e.g., community colleges, Health and Human Services, Unemployment Insurance, non-profit financial counseling services; and if appropriate Trade Adjustment Assistance staff etc.).

Assistance with Rapid Response activities are defined in the Workforce Innovation and Opportunity Act Section 134(a)(2)(A) and Section 134(d)(1)(A)(ix)(II)(cc). Usually, local Career Center managers will make on-site contact with employers, representatives of the affected workers and concerned family members local to offer assistance with job search workshops, and career services and training services for affected workers.

PARTICIPANT SERVICES

A. Outreach and Recruitment

WIOA service providers are expected to coordinate outreach efforts and disseminate information on program services available through the NCWorks Career Centers. Efforts to market service to both job seekers and businesses must be a priority. The availability of access to services offered by partner agencies in the NCWorks Centers is also an important part of the outreach and recruitment process. Special efforts shall be made to recruit adults and dislocated workers including veterans, public assistance recipients, minorities and persons with disabilities.

B. Eligibility Determination/Verification

Prior to enrollment in a **WIOA Training Activity** applicants must be certified as eligible to receive WIOA services by authorized intake personnel in accordance with the Division of Workforce Solution's (DWS) instructions for data entry into the NCWorks virtual online system. The service provider is responsible for reviewing each client's WIOA application to ensure that services are provided only to applicants who have been determined and verified eligible.

For most basic services related to NCWorks Online registration, basic job search assistance and attendance in job readiness workshops the only eligibility documentation needed is being age 18 or older and having a driver's license or State issued photo ID.

For **WIOA Training** Services more extensive documentation is required prior to enrollment in a Training Activity:

- A copy of the client's signed social security card or documents proving authorization to work in the US
- A Photo ID issued by a unit of state, federal or local government
- Signed WIOA Application and Eligibility Determination Form
- Signed Participant Rights, Benefits, and Complaint Procedures Form
- Signed Individual Employment Plan
- Signed Release of Information Statements
- A copy of verification of County of Residence
- A copy of verification of Applicant's Age and Place of Birth
- Selective Service Registration (Males over age 18 only)
- Prior six months' income for Adults or proof of receipt of public assistance
- Verification of dislocated worker status
- Veterans copy of Form DD-214

These verification documents **must be secured** in the participant's permanent file and will be subject for review by the Local Area and the State's Monitoring Team. In the event that ineligible participants/enrollees are identified, the WIOA service provider is responsible for immediately notifying MAWD. In compliance with the regulations, appropriate steps must be taken to immediately terminate the ineligible participant/enrollee from the program. Any cost incurred will be disallowed.

C. General Client Orientation

As part of delivering WIOA services and Wagner-Peyser services, a general orientation will be provided to all integrated service delivery system customers which includes an explanation of:

E. Assessments

WIOA service providers will be required to conduct an assessment for each eligible participant. The assessment provides the necessary foundation for the WIOA service provider in partnership with the participant, to establish a service strategy that addresses their academic and occupational skills status/needs that ultimately lead to employment. The assessment consists of a review of the participant’s academic levels, skill levels and service needs to include:

- | | | |
|--------------------------------------|---|---|
| •family situation | •interest and aptitudes (including interests and aptitudes for non-traditional occupations) | •job readiness/employability skills |
| •work history | •attitudes toward work/training including motivation factors | •personal employment information as it relates to the local labor market. |
| •occupational skills and credentials | •financial resources/wages earned in recent employment and wage needs | •assessment of effective workplace behaviors and job retention skills |
| •basic skill levels | •barriers to employment | |

E. Individual Employment Plan (WIOA enrollees only)

As stated in WIOA Section 134(c)(3)(A)(i), the need to determine an individual is “unable to obtain employment that leads to economic self-sufficiency” before training can be provided does not mean that the individual must pass through layers of service to prove the need for service. A case manager could initially meet with a participant, assess skills, consider labor market conditions and determine that core and intensive services will not be sufficient to result

in employment. The provision of training or other needed services can then be provided sequentially, concurrently, or in whatever order makes the most sense for the individual. However, the case manager should determine that the client has "...the skills and qualifications to successfully participate in the selected program of training services."

From this method of determination of need, the case manager along with the participant will develop the Individual Employment Plan (IEP). The IEP is an ongoing strategy jointly developed by the participant and the case manager, that identifies the participant's employment goals, the appropriate achievement objects, and the appropriate combination of services for the participant to achieve his/her employment goals.

F. Individual Training Accounts (WIOA enrollees in long-term training only)

Training services will be provided to eligible adults and dislocated workers through Individual Training Account (ITA) vouchers issued by the WIOA service provider located in the Asheville NCWorks Career Center or Henderson County NCWorks Career Center. The ITA is an account that is established on behalf of an eligible individual enrolled in a long-term training activity and will be funded with adult and dislocated worker funds authorized under Title I of WIOA. Trainings services shall be provided in a manner that maximizes consumer choice in the selection of eligible providers that are approved by the MAWDB. The WIOA service provider will be responsible for managing the Individual Training Account voucher system, including tracking of expenses incurred during training that are paid through the ITA, in Asheville NCWorks Career Center or Henderson County NCWorks Career Center. The WIOA service provider will assist eligible individuals who have completed core and intensive service activities with the purchase of a training program that meets the individual's training needs as evidenced by supporting documentation in the participant's permanent file. Individuals eligible for WIOA-supported training services have consumer choice in the selection of a training program that best meets their needs in alignment with their Individual Employment Plan (IEP).

The WIOA service provider will provide information regarding the availability of training. Individual Training Accounts will be discussed with the individual specifying his/her responsibility regarding the ITA. In consultation with the WIOA service provider, the participant will review the list of eligible training providers to determine available training options. The training provider's requirements for enrollment, performance outcomes, and cost for the training course selected will be discussed with the participant. The participant will be responsible for selecting a training provider from the list of eligible providers approved by the MAWDB and listed in NCWorks as eligible for WIOA support. Training must be directly linked to occupations that are in demand in the Local Area or in another area to which an adult or dislocated worker receiving such services is willing to relocate.

When training funds are not provided in the WIOA service provider's contract, payments from ITAs will be made to the approved training institutions by Land of Sky Regional Council on behalf of MAWD. Payment of training costs by WIOA will be coordinated with any payment of training costs by other grant assistance. The WIOA service provider will be required to abide by contractual requirements, as well as Federal, State and local policies and procedures. The WIOA service provider will be required to track expenditures of resources by individuals to ensure that individual accounts are not over awarded through WIOA Title I funds for the ITA. Only training providers that have been approved by the MAWDB for the delivery of long-term

curriculum programs and that are on the NCWorks list of eligible providers will be reimbursed under the ITA vouchers.

Short term training courses are paid through a cost authorization process, not through the ITA system. In order to maximize training opportunities for as many eligible individuals as possible the maximum amount of funding for short term training which leads to a nationally recognized credential or that provides a credential that is recognized by local employers is \$1500.00 per individual with a six (6) month limit on training allowed. Training funds for eligible individuals participating in non-credentialed workforce continuing education classes is limited to \$750.00. For eligible WIOA participants in need of long-term training, WIOA service providers will adhere to the Local Area's ITA policy and procedures that outline the requirements and limitations. (Attachment E)

F. Supportive Services

Supportive services may be provided to individuals who are participating in training services and/or receiving intensive career services and who are unable to obtain supportive services through other programs providing such services. The WIOA service provider will provide supportive services to participants through arrangements with integrated service delivery system partners and other human services agencies in order to avoid duplication and maximize resources. Where community resources are not available to provide supportive services as identified in the participant's individual employment plan, the WIOA service provider may provide such services provided funds are included and approved in the WIOA Budget. When funding is not provided in a subrecipient's approved WIOA budget(s), MAWDB staff may procure services directly for the benefit of the WIOA participant. In all cases, the WIOA service provider will be required to provide rationale for WIOA funded assistance and supporting documentation for reimbursement from or direct support from MAWD.

G. Management Information System and Reporting Requirements

North Carolina's NCWorks virtual online system is a browser-based (internet) case management system that can be accessed by authorized individuals twenty-four hours a day, seven days a week from any computer with internet access (Internet Explorer required). The Local Area requires that all WIOA service provider staff participate in State and local training as it relates to data entry and documentation requirements in the NCWorks system.

The NCWorks virtual online system stores participant data that will be used to report required information to the U.S. Department of Labor, the North Carolina General Assembly, The North Carolina Department of Commerce/Division of Workforce Solutions and other interested parties. The data is also used to calculate State and Local Areas' performance against the mandated WIOA performance measures.

H. Follow-up Services 663.150(b) – WIOA enrollees only

WIOA service providers are required to provide follow-up services for adults and dislocated workers, for a minimum of four quarters after the exit, to assist participants in meeting performance measures regarding unsubsidized employment, measurable skills gains, and earnings during the 2nd and 4th quarters after exit.

I. Rapid Response Activities (Wagner-Peyser, WIOA, TAA, Unemployment Insurance and Selected Partner Organization Staffs)

Integrated service delivery service providers who operate the Dislocated Worker program will be required to participate in Rapid Response activities in their service area. In consultation with the employer, representatives from the State Rapid Response Dislocated Worker Unit, MAWD staff, and local service delivery partners will provide information to workers, employers, worker representatives, and the community. The information concerns the availability of services such as unemployment compensation, labor market information, retraining opportunities, strategies for re-employment, as well as Trade Act program information where appropriate. The delivery of services provided by different agencies and programs will be seamless and coordinated through the local North Carolina Workforce Office system in their workforce area. Rapid Response resources, combined with other available resources, should provide workers with services they need to ease the adjustment process and return to productive work. By leveraging and coordinating resources, a wider range of assistance can be directed at the effort to help workers and their families adjust to job loss and help the workers re-enter the workforce.

VI. PROGRAM DESIGN – SCOPE OF WORK

NCWorks Career Center Functions:

Overview

The Mountain Area Workforce Development Board is seeking service providers that employ vision, innovation, accountability, and efficient and effective utilization of resources in workforce development services with customers. In the interest of establishing a seamless delivery of services for all prospective customers and keeping with both the spirit of the WIOA legislation as it pertains to the participation of all mandatory partner agencies and programs, it is essential that all partners deliver services in the most effective and integrated manner as possible.

Service Providers will be expected to deliver WIOA services within the context of the NCWorks system and operated specifically in the local NCWorks Career Centers, which includes consistent use of the name, logo, marketing materials, etc. NCWorks Career Centers serve as a hub for workforce efforts within their community, offering services to both job seekers and employers within the NCWorks Integrated Services Framework.

All staff should be fully cross-trained to fulfill any “career services” role within a center dependent on need and traffic flow.

NCWorks Career Centers Integrated Service Delivery Model:

North Carolina’s NCWorks Career Center System was established to provide improved performance, more coordinated access to services, and accountability of workforce development service delivery in North Carolina. **The vision for the Career Center System is that all customers of the system will be served by staff organized by function, rather than by program or funding source, through a customer-focused, skill-based, integrated service delivery strategy.**

North Carolina’s NCWorks Career Centers provides integrated services to better serve customers – both individuals and businesses. This system features an integrated customer flow that responds to customer need(s), fulfilled by cross-trained teams, with functional and formal leadership funded by both Wagner-Peyser and WIOA Title I, and other partners, as appropriate.

The NCWorks Career Center system as an integrated service delivery model enhances the movement towards a seamless united approach and emphasizes the need for and support of the Workforce Development Boards (WDBs), the Division of Workforce Solutions (DWS) collaboration across the state. Under this model, DWS and the WDB integrate its staff, and any WIOA subrecipients, and shift from program specific organizations to an integrated services approach. All local NCWorks Career Center staff are integrated into functional units not separated by program or funding stream. While WIOA and Wagner-Peyser funded staff are the foundation of this new approach to service delivery, other partners and programs participate in the staffing of a Career Center.

DWS and the WDB work together to provide an integrated customer flow designed to respond to customer need in addition to program requirements. Staff-assisted services are emphasized and Center services are continuously promoted and provided until the customer’s goal has been achieved. The NCWorks Career Center customer flow of services will include three major functions: welcome/assessment, skill development, and employment.

Using regional labor market information, the Center designs and provides services to meet the needs of employers and jobseeker customers.

Career Center customers, if eligible, will be enrolled in the performance pool of both WIOA Title I Adult and Wagner-Peyser. All Trade Act customers will also be enrolled in the performance pool of the WIOA Title I Dislocated Worker Program. WIOA Title I Youth customers are not generally considered a part of the common customer pool, as the needs and the services available to that population are different. However, youth customers should be served in coordination with the Local Area WIOA Title I Youth subrecipients.

All NCWorks Career Center customers, including Unemployment Insurance claimants, are provided with the opportunity to assess their skills, improve their skills, and obtain the best job possible with their skills. The goal is that all jobseekers that enter a NCWorks Career Center will leave as better job candidates because of the value-added services received. DWS and the WDB will develop a system where adults move easily within the labor market, continuing to further their education and training over a lifetime to advance in their careers.

The NCWorks Career Center customer flow includes a standardized initial skills assessment, access to a wide range of skill development services, and include options to improve their employment opportunities through skill upgrading, skill validation, and credentialing.

North Carolina's NCWorks Career Centers provide a wide range of short-term skill development opportunities through multiple service delivery methods. All services in this robust "product box" are available to Center customers, embedded in an integrated customer flow, and easily accessed by all customers with the support of all Center staff.

Functional Versus Formal Leadership:

Career Center staff will be supervised based upon two different approaches – functional and formal supervision. The functional leader has the authority to organize and supervise staff, without regard to the program that funds an individual staff member and will focus on day-to-day supervision of service delivery efforts. The formal leader has responsibilities as the employer of record.

The functional leader:

- Creates daily work schedules, team assignments and work flow based upon operational needs.
- Coordinates staff vacations/unscheduled absences with the formal leader to ensure service coverage by Center staff.
- Ensures staff are properly trained and provided technical assistance as needed.
- Provides constructive feedback to team staff regarding their duties.
- Facilitates communication among the other functional leaders and teams in the Center.
- Provides input to the formal leader on the work performance of staff under their purview.
- Notifies the formal leader immediately of any staff leave requests or unexcused absences, disciplinary needs, or changes in employee status.
- Identifies and facilitates the timely resolution of complaints, problems, and other issues.
- Will not have access to personnel information or disciplinary actions of Center staff unless under their direct employment.

- Provides and/or contributes to reports of Center activities as requested by the WDB or DWS.
- Will ensure open communication with the formal leader(s) and center Manager in order to facilitate efficient and effective Center operations.
- The formal leader has the following responsibilities only for Center staff under their purview:
 - Hires, disciplines, and/or terminates staff.
 - Completes performance appraisals and disciplinary actions for Center staff in concert with feedback from the functional leader.
 - Approves payroll records, travel requests, and reimbursements.
 - Identifies and facilitates the timely resolution of complaints, problems, and other issues.
 - Approves and assists with procurement and other fiscal matters that obligate State or federal funds under their purview.

Shared Accountability:

3. Shared accountability assumes accountability for agreed upon outcomes articulated as success indicators of performance and the established levels of performance goals to be attained for these indicators.
4. Partners have direct or indirect responsibility for all outcomes/indicators.
5. Shared accountability does not mean that partners have given up their own specific missions; it means they recognize their connection to the whole system.

The CRC is designed to meet the needs of both employers and job seekers in this transitioning economy. For employers, the CRC offers a reliable means of determining whether a potential employee has the necessary literacy, numeracy, and problem solving skills to be "job ready". For job seekers, the CRC serves as a portable credential that can be more meaningful to employers than a high school degree or a resume citing experience in a different job setting. The CRC assessments identify current skill levels in reading, locating information, and math and skill gaps to help determine a comprehensive approach to serving youth. For more information about the North Carolina Career Readiness Certificate initiative, please visit www.crcnc.org.

Referrals: Providers must ensure that each participant or applicant who meets the income criteria and other “most in need” criteria will be considered for enrollment and/or referral. Eligible individuals will be provided:

- Information on the full array of applicable or appropriate services that are available through the Local Board, other eligible providers or NCWorks Workforce partners, including those receiving funds under WIOA Title I and
- Referral to appropriate training and educational programs that have the capacity to serve the participant or applicant either on a sequential or concurrent basis.

Individual Employment Plan:

Service strategies for each participant will identify:

- employment goal (including, in appropriate circumstances, nontraditional employment)
- appropriate achievement objectives
- appropriate services for the participant
- expected outcomes in relation to performance standards

Occupational Skills Training: Instruction conducted in an institutional or worksite setting designed to provide, upgrade or retrain individuals with technical skills and information required to perform a specific job or group of jobs in locally identified skill demand occupations. This service may address situations where specific demand for identified occupations occurs in a number of companies with the same basic skills requirements or where a single company agrees to hire all certified completers. The WDB has identified and approved training in occupations that are in demand in the Local Area. A copy of approved training curriculums is attached. Participants may elect to receive their training from any eligible provider from a listing on NCWorks (<http://www.ncworks.gov>). The eligible providers' list is established to maximize customer choice and aid an individual in making an informed decision about his/her training. The approved list will include those vendors who have applied for inclusion on the list and who have met performance criteria as it relates to program completion and placement of completers into training-related occupations. This performance information, as well as cost information, will be made available to customers of the One-Stop service delivery system. Once a training provider has been selected from the list of eligible institutions, the participant will be issued an Individual Training Account.

Supportive Services: The subrecipient should be knowledgeable of the WIOA supportive services issuance process as specified in the Mountain Area Workforce Development Board's Supportive Service Policy. (Attachment L)

On-the-Job Training:

On-the-Job Training services shall be provided through the One-Stop delivery system by the Board's Business Services staff.

OJT activities allow an eligible participant who is otherwise "job ready" to learn skills for a specific occupation through demonstration and practice under actual working conditions in the private sector.

This training will occur while the participant is engaged in productive, full-time work as a hired employee. OJT participants will work the same standard hours as those of the employer's regular workforce and will be provided the same benefits and working conditions as other employees working a similar length of time and doing the same type of work. The length of OJT training must be limited to the period of time required for a customer to become proficient in the occupation for which the training is being provided.

Performance Measures and Follow-Up Services

The Workforce Innovation and Opportunity Act (WIOA) establishes a comprehensive performance accountability system in order to optimize the return on investment of Federal funds and to assess the effectiveness of Local Areas in achieving continuous improvement of workforce investment activities funded under WIOA.

Below are the core indicators of performance for the Adult and Dislocated Worker Programs and proposers should be prepared to collect data pertaining to those indicators.

(1) For the Adult and Dislocated Worker Program these indicators are

- (i) Entry into unsubsidized employment (must be employed first quarter after exit)
- (II) Retention in unsubsidized employment six months after being employed
- (III) Earnings received in unsubsidized employment for six months after being employed.

Since performance is based on a participant's employment status for a period of twelve (12) months after exit, the following will be required of the subrecipient:

- Individualized, Training, and Follow-Up Service - subrecipients will be expected to provide Follow-Up Services as needed to participants that have exited from the program and
 - still need further assistance in obtaining or retaining employment. These services will be
 - reflected in the participant's IEP. Follow-Up services may include:
 - additional career planning and counseling;
 - contact with the participant's employer, including assistance with work-related
 - problems that may arise;
 - information about additional educational opportunities
 - referral to supportive services available in the community
- WIOA staff will be required to follow-up and obtain information on participants that have exited from the program and who have no wages reported during the follow-up period.

The subrecipient will also be responsible for timely input of data into the North Carolina NCWorks data base/case management system for North Carolina. Information will include registration/enrollment details, eligibility information, pretest scores, service record, outcomes, placements, case notes, exit case notes and results of all follow up efforts.

Staff Development:

Attendance at quarterly (at a minimum) case manager/subrecipient meetings is mandatory. At the meetings, case managers/subrecipients will be updated on program issues and policy updates. Subrecipients will be asked to provide timely reports to include upcoming events, success stories and program highlights.

Program staff is expected to attend training, which will enhance their career development skills. Local area training will be held according to staff training needs. In addition, subrecipients are expected to attend conferences and trainings sponsored and/or endorsed by the NC Division of Workforce Solutions including but not limited to the "Career Development Facilitator" (CDF) certification.

Program Administration Requirements: Fiscal Record Keeping- In general, proposers who become operators, as a result of this RFP will be required to maintain records for a time period sufficient to cover Data Validation and Audits; usually three (3) years; however, not to exceed five (5) years.

North Carolina Management Information System (MIS):

Accountability is an essential aspect of the administration of WIOA. All services and outcomes must be tracked and federal and state reporting requirements must be met. The North Carolina Department of Commerce-Division of Workforce Solutions has developed an automated Integrated Management Information System (NCWorks Online) to provide for the storage and maintenance of data that is necessary to comply with federal and state requirements. NCWorks Online was developed to provide an automated customer intake, tracking and reporting system for WIOA and Wagner Peyser. The system is built around a concept of workflow that is intended to match the reality of case management in the field. The system is internet-based, provides security for customer records, and features standard reports that are accessible to the SWDB and to Career center staff. An individual customer record is created in NCWorks Online for each person served under WIOA. Career center staff members are required to use NCWorks Online to track all customers from initial contact through intake/application, WIOA registration, and enrollment into selected activities, case management/case notes, activity status updates, outcomes reporting, exit, and post-employment follow-up.

Continuous Improvement:

The Career Center Functional Leader must ensure continuous improvement of the career center services. Improvement should focus on, but is not limited to, program operation, performance outcomes, customer satisfaction, and cost effectiveness. Implementing processes and schedules for reviewing and analyzing performance data for the Career center and with partners, identifying areas to target for improvement, ensure that means are developed to improve performance, implementing changes and monitoring the results; and develop solutions to address any identified problems in day-to-day operations and continue to apply corrective actions until performance meets standards.

Specific costs targeted in the comparison are staff costs, administrative costs, training costs, telephone expenses, IT support and expenses, equipment, supplies and any applicable insurance costs.

This market analysis comparison will be included in the RFP rating process and contract renewal process. Cost reasonableness determination for all other services/equipment or supplies will be conducted in compliance with MAWDB/Land of Sky Regional Council procurement policy.

Additionally, Local Area staff may conduct pre-award reviews if deemed necessary prior to presentation of proposal results to the WDB. The Local Area Director will be responsible for all technical assistance and inquiries regarding proposals.

The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participants, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.
6. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, Subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "A Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transaction," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not proposed for debarment under 48 CFR Part 9, Subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility

of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Non-Procurement programs.

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, Subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

In many instances, fiscal and programmatic monitoring are interrelated, and conducted simultaneously.

According to the provisions of the Workforce Innovation and Opportunity Act, service providers must cooperate with any monitoring, inspection, audit or investigation of activities related to WIOA contracts. These activities may be conducted by the North Carolina Division of Workforce Solutions, the State of North Carolina, the U.S. Department of Labor, and the LA, or their designated representatives.
